Specialist: Gynaecologists and Obstetricians

The above doctors will be commencing private practice through the Mater Hospital Bundaberg from 4 April 2011.

Dr Swanepoel has graduated from the University of Pretoria in South Africa and has completed his post graduate studies in South Africa, obtaining his FCOG in 2003 from the College of Obstetricians and Gynaecologists of South Africa and his MMED (OetG) from the University of Pretoria. He obtained his FRANZCOG in 2008 from the Royal Australian and New Zealand College of Obstetricians and Gynaecologists.

He moved to Bundaberg in 2007 and has been working as a generalist at the Bundaberg Hospital. He has a special interest in minimal invasive endoscopic surgery, uro-gynaecology, including female incontinence and prolapse surgery.

Dr Bolton has graduated from the University of Pretoria in South Africa and has completed her post graduate studies in South Africa obtaining her FCOG in 2007 from the College of Obstetricians and Gynaecologists of South Africa and her MMED (OetG) from the University of Pretoria. She obtained her FRANZCOG in 2010 from the Royal Australian and New Zealand College of Obstetricians and Gynaecologists.

Dr Bolton moved to Bundaberg in 2009 and has worked as a generalist at the Bundaberg hospital. She has a special interest in feto-maternal medicine, infertility and adolescent gynaecology.

Both doctors will not be offering obstetric services to patients at present, but are looking forward to offer a wide range of gynaecological services.

Both Gynaecologists will be offering a wide range of gynaecology services including:

- * Contraception advice
- * Infertility work up
- * Abnormal uterine bleeding management
- * Minimally invasive procedures – laparoscopy, hysteroscopy & endoscopy
- * Menopause and hormone replacement treatment
- * Sexual dysfunction
- * Gynaecology cancer work up and after care
- * Adolescent Gynaecology
- * Uro-gynaecology – Prolapse management & urinary incontinence (with sling support procedures)
- * Mirena insertion and replacement
- * Implanon and HRT implants

Procedures will be mainly done in the Mater Hospital with occasional sessions in the Friendly Society Private Hospital.

Appointments and referrals are now being accepted for the above doctors.
